

**Authorized Granite Shield  
United States Distributor/Applicator  
\$5,000 Licensing**

This Agreement is made effective as of \_\_\_\_\_, by and between \_\_\_\_\_ of \_\_\_\_\_, Tax ID# \_\_\_\_\_

Driver's license# \_\_\_\_\_ Contractor's License# \_\_\_\_\_ and Granite Shield.

The following contract is a license to apply the Granite Shield process to his and or her customers wherever they are located and to set up independent Applicators in areas available. The licensing fee is \$5,000. Distributor will be provided with a seal kit by choosing the prepay service chemical options listed below in this contract. Applicator agrees to offer Granite Shield permanent sealing process to all customers, market and use the Granite Shield trademarked logo for marketing and business website. Only one individual will be considered the licensed Granite Shield Applicator. The licensed Granite Shield Applicator's employees if will be trained how to use the Granite Shield process and sealing Granite Shield jobs will need to first sign the Granite Shield non compete non disclosure contract and will need to get certified through the Granite Shield corporate office and then will be considered a certified Granite Shield Applicator. For employees to get Granite Shield certified it is \$25.00 per employee good for a 12 month period and then needs to be renewed for \$25.00 each. Once the Granite Shield seal kit is shipped and received Distributor/Applicator will immediately offer the Granite Shield permanent sealer to all customers and at a reasonable price for fabrication customers. For fabrication customers Granite Shield could be included in the price of the granite to the customer or at a reasonable price with no minimum sq. ft. but has to be listed on the customer receipt. For sealing customers other than fabrication customers prices shall be set at a minimum Granite Shield corporate office's suggested retail price and reasonably priced that it is affordable. Suggested pricing per sq. ft. for other than fabrication customer's is US \$5.00 a sq. ft. to \$8.00 a sq. ft. a with a 60 sq. ft. minimum such as \$300.00 to \$360.00 as a minimum.

The \$5,000 licensing fee is licensing to use the intellectual property of Granite Shield such as name, logo, learn and use the Granite Shield process and add additional Granite Shield Applicators under Granite Shield corporate office licensing contracts. It is not purchasing or selling a territory. This fee allows the Distributor an exclusive territory. To maintain this exclusive territory distributor and or applicators distributor signs up must maintain minimum sales of Granite Shield suggested retail pricing of \$5,000.00 per month (2,500.00 paid to the Granite Shield corporate office from prepay service chemical purchases) in territory. That includes applicators signed by DISTRIBUTOR within territory beginning the 3<sup>rd</sup> month of signing this contract. Distributor agrees to grow the territory and add additional applicators in territory. If Distributor fails to grow the territory Granite Shield reserves the right to add additional applicators. Mutually agreed map of territory to be included with this contract and will be signed by both parties.

In this Agreement, the party who is contracting to receive services shall be referred to as "PRINCIPAL", and the party who will be providing the services shall be referred to as "Applicator".

Therefore, the parties agree as follows:

1. DESCRIPTION OF SERVICES. Beginning \_\_\_\_\_, Applicator will provide the following services (collectively the "Services"): Clean, prepare and seal surfaces for which Applicator is certified by the PRINCIPAL. This will be accomplished to the standards outlined in the most current sealing manual provided by PRINCIPAL. Sealing existing surfaces Applicator will prepare surface including if needed for an extra charge to customer remove stains, cleaning or remove existing sealer if needed or have customer sign off that current condition is acceptable noting conditions on the Granite Shield customer worksheet.

2. PERFORMANCE OF SERVICES. The manner in which the services are to be performed and the specific hours to be worked by Applicator shall be determined by Applicator. PRINCIPAL will rely on Applicator to work as many hours as may be reasonably necessary to fulfill Applicator's obligations under this Agreement.
3. PAPERWORK. Applicator will invoice consumer using approved Granite Shield sales receipt worksheet and all checks will be made payable to\_\_\_\_\_. PRINCIPAL will make available all products for sealing applications to applicator. Invoices must include consumer's name, address, and phone number, as well as square footage, what was and location of what was sealed, total price and consumer's signature of completion to activate warranty. Applicator registering the customer's completed seal job must be done within 30 days of the completed seal job with the Granite Shield corporate office. The Granite Shield coversheet is due on the 1<sup>st</sup> of every month faxed to the Granite Shield corporate office which includes an inventory of Granite Shield chemicals. All customers are to be provided with the Granite Shield warranty information document and cleaning instructions.
4. DISTRIBUTION. DISTRIBUTOR is authorized to set up new independent Applicator. The fee for Applicator will be what the current contracts are available from the Granite Shield corporate office. The DISTRIBUTOR shall receive 10% commission chemical credit on the amount the additional signed up applicator pays to the Granite Shield corporate office based on what the newly signed applicator prepay service chemicals or 5% commission check. Example: Applicator signed up by DISTRIBUTOR purchases \$4,800 prepay service chemical DISTRIBUTOR receive 10% prepay service chemical credit of \$480.00 or \$240.00 commission check. Chemical commission check will be mailed within 10 business days of new applicator's chemical order. Commission will be based on chemical order and not including licensing fee. Chemical order needs to be paid in full and has to have cleared the Granite Shield corporate bank account until time frame begins. The DISTRIBUTOR shall receive a 10% commission chemical credit or 5% commission check from all prepay service chemical orders from Applicators under Distributors distributorship as long as the Granite Shield Distributor is in good standing with the Granite Shield corporate office. Applicator must turn in customer worksheets to Granite Shield to the Granite Shield corporate office and fax a copy of customer worksheets to DISTRIBUTOR for their records. DISTRIBUTOR must be in good standing with Granite Shield to receive commission. Distributor needs to make an honest effort to add additional Applicators once signing the Distributor contract as long as a Granite Shield Distributor either by email, mail, phone, meetings on a monthly basis. To be in good standing Distributor must sign up a minimum of 6 new Applicator's under the Granite Shield corporate office contract in a 12 month period beginning the day seal kit is delivered. Deliver to the Granite Shield corporate office required paperwork within 30 days of completed seal.
5. APPLICATORS UNDER DISTRIBUTOR'S DISTRIBUTORSHIP. Distributor will have the option to receive a 10% commission chemical credit or 5% commission check from the Granite Shield corporate office. Distributor will need to in advance in writing state whether commission is to be in chemical or a check. All commissions will be assumed chemical credit unless otherwise specified. Chemical commission check will be mailed within 10 business days of Applicator's chemical order or when notified if commission is to be a check. Commission will be based on prepay service chemical order and not aftercare or cleaning products. Chemical order needs to be paid in full and has to have cleared the Granite Shield corporate bank account until time frame begins. Distributor's name will need to appear on the Applicator Contract where it asks "Are You Currently Working with a Granite Shield Distributor?" and needs to include name where it asks for name. It is advisable to notify in advance the Granite Shield corporate office that Distributor is in the process of signing up the applicator so the Distributor gets credit. Chemical credits do not apply when purchasing prepay service chemical, aftercare and cleaning products or marketing material during Granite Shield chemical specials.

6. GRANITE FABRICATORS. Distributor signing up independent granite fabricator applicators under Granite Shield's Granite Fabricator contract will not receive a training fee or training fee chemical credit from the Granite Shield corporate office. Under this Granite Fabricator contract should Distributor have granite fabricator sign this contract Distributor will have the option to receive a 10% commission chemical credit or 5% commission check from the Granite Shield corporate office. Chemical commission check will be mailed within 10 business days of granite fabricators chemical order. Commission will be based on chemical order and not including licensing fee. Chemical order needs to be paid in full and has to have cleared the Granite Shield corporate bank account until time frame begins. Training fee paid to Distributor will be between Distributor and newly signed granite fabricator applicator. Training location is between Distributor and newly signed granite fabricator.
7. GRANITE SUPPLIERS UNDER DISTRIBUTOR. Granite Suppliers that are licensed Granite Shield Applicators that sell Granite Shield sealed granite slabs to granite fabricators can sell their granite slabs wherever their customers are. Their customers are their customers no matter where they are including if they are in another Granite Shield Applicator's territory. The Granite supplier's granite fabricator customer since it is the granite supplier's customer can be signed up as a Granite Shield Applicator under Distributor so that the granite fabricator can seal their edges and seems since the surface of the slab has only been sealed.
8. GRANITE SUPPLIER APPLICATOR. The granite supplier is to become a licensed Granite Shield Applicator. The warranty as is to the supplier would be for the surface warranty only. Edges and seems would not be covered because presealed slabs once cut for edges and seems wouldn't be sealed. For an all inclusive lifetime warranty his customer the granite fabricator once fabricating and installing would then have to seal the edges and seems so the fabricator must sign up to be an applicator signing a Granite Shield Granite Fabricator licensing contract and purchase prepaid service chemical seal kit minimum 8 oz. set of chemical which would seal approximately 240 sq. ft. and greater. Training would be optional and Distributor would determine what to charge per training session for a group of newly signed up applicators.
9. GRANITE SHIELD AFTERCARE & CLEANING PRODUCTS: Authorized Granite Shield Applicator will have available to customer Granite Shield's Kleen N Shine, Nustone Kleen and Kleen N Shield either as a sample or available to purchase when sealing the customer's hard surface.
10. DISTRIBUTORSHIP LOCATION: This contract only applies to being a DISTRIBUTOR within the within the country you are a distributor for. Adding independent applicator's outside of the country DISTRIBUTOR is located will need approval from Craig Phillips and or Debbie Phillips.
11. REGISTRATION AND ACTIVATION OF WARRANTY: For the warranty to be registered the Granite Shield applicator must provide documentation that is required to the Granite Shield corporate office for the warranty to be registered. The warranty will not be considered registered and can not be activated until the Granite Shield applicator turns in his/or her required documentation. The Applicator is required to fill out within 30 days of the completed seal job the Applicator Customer Online Registration. Once this form is completed can be printed and presented to the Granite Shield customer applicator registered the customer's warranty should customer request a copy. The customer must complete the warranty registration for the warranty to be activated by filling out the Customer Online Warranty Registration within 30 days of completed seal job and fax, email or mail a copy of the Granite Shield warranty card along with a Granite Shield customer receipt so the warranty will be in effect with the Granite Shield corporate office and completes the registration process.
12. CUSTOM GRANITE SHIELD PAPERWORK TO CUSTOMER: Custom Granite paperwork provided to the customer as a receipt, warranty or cleaning procedures has to approved by the Granite Shield corporate office prior to giving a copy to the customer. Granite Shield receipt must include: customer name, address, item sealed, sq. ft. sealed, date purchased, cost of item, showing full payment from customer. If it's a granite fabricator the receipt needs to show what the fabricator charged the customer or if it's a no charged item such as a special etc. needs to show no charge to the customer but the Granite Shield corporate office still needs to be paid the agreed amount between the Granite Shield corporate office and applicator. For sealing for home builders the tract and lot number is sufficient as a home address.

13. RELATIONSHIP OF PARTIES. It is understood by the parties that Applicator is an independent contractor sealing service with respect to PRINCIPAL, and not an employee of PRINCIPAL. PRINCIPAL will not provide fringe benefits, including health insurance benefits, paid vacation or any other employee benefit for the benefit of Applicator.
14. EMPLOYEES. Applicator's employees, if any, who perform services for PRINCIPAL under this Agreement shall also be bound by the provisions of this Agreement.
15. INJURIES. Applicator acknowledges Applicator's obligation to obtain appropriate insurance coverage for the benefit of Applicator (and Applicator's employees, if any). Applicator waives any rights to recovery from PRINCIPAL for any injuries that Applicator (and/or Applicator's employees) may sustain while performing services under this Agreement and that are a result of the negligence of Applicator or Applicator's employees.
16. ASSIGNMENT. Applicator's obligations under this Agreement may not be assigned or transferred to any other person, firm, or corporation without prior written consent of PRINCIPAL.
17. QUALITY/WARRANTY. Applicator is responsible for the safe and proper application of Principal's products. Applicator will correct at own expense and make any repairs necessary, issues resulting from a faulty application or negligence of Applicator. PRINCIPAL will provide materials at no charge to Applicator and pay for services for any application that fails due to fault of materials. If Applicator fails to remedy a claim promptly, PRINCIPAL may, at its discretion, have the issue corrected at Applicator's expense including any additional costs incurred by PRINCIPAL in such remedy.
18. ENTIRE AGREEMENT. This Agreement contains the entire agreement of the parties and there are no other promises or conditions in any other agreement whether oral or written. This Agreement supersedes any prior written or oral agreements between the parties.
19. AMENDMENT. This Agreement may be modified or amended if the amendment is made in writing and signed by both parties.
20. SEVERABILITY. If any provision of this Agreement shall be held to be invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable. If a court finds that any provision of this Agreement is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision shall be deemed to be written, construed, and enforced as so limited.
21. WAIVER OF CONTRACTUAL RIGHT. The failure of either party to enforce any provision of this Agreement shall not be construed as a waiver or limitation of that party's right to subsequently enforce and compel strict compliance with every provision of this Agreement.
22. APPLICABLE LAW. This Agreement is agreed upon in the State of California in the United States and shall be governed by the laws of the State of California and California courts. Granite Shield is a registered trademark with the United States Patent and Trademark office.
23. TERM/TERMINATION. This agreement may only be terminated by gross negligence or non-performance of duties by either party upon 30 day's written notice to the other party.
24. RETURN OF PROPERTY. Upon termination of this Agreement, Applicator shall deliver all records, notes, data, memorandum, models, chemicals and equipment of any nature that are in Applicator possession or under Applicator's control and that are Principal's property or relate to Principal's business. All Granite Shield seal jobs must be paid in full to the Granite Shield corporate office should Applicator discontinue as a Granite Shield Applicator or close business. Providing a service and collecting money from a customer and not paying the Granite Shield corporate office or providing customer paperwork for that service is defrauding the customer and the Granite Shield corporate office.

25. GRANITE SHIELD TRADEMARK: Granite Shield is a registered trademark. Granite Shield corporate will supply you with a Granite Shield corporate website with your information. If considering purchasing a Granite Shield domain name will need approval in writing from Craig Phillips or Debbie Phillips. If you are considering applying for a DBA or corporation name with the name Granite Shield in your city or state will require approval in writing from Craig Phillips or Debbie Phillips. All use of the registered trademark name Granite Shield will be surrendered such as domain names and ceased on marketing material if you are no longer a Granite Shield applicator.
26. NON DISCLOSURE/NON COMPETE AGREEMENT. By signing below, Applicator, employees and or associates will not compete with Granite Shield, will not use a similar process as Granite Shield that is not using Granite Shield approved chemicals nor disclose or divulge any procedures, techniques or information pertaining to the chemicals or procedures used by Granite Shield during or after terms of this agreement. Sealing procedures learned from Granite Shield for hard surfaces will not be used other than with Granite Shield approved chemicals. Applicator will not do a "demonstration of the actual Granite Shield process" unless authorized by Craig Phillips and or Debbie Phillips.
27. GRANITE SHIELD WARRANTY: The Granite Shield granite sealing process is under warranty for the lifetime of the sealed surface against staining to the sealed surface by an authorized Granite Shield applicator. If any such adverse change occurs after the Granite Shield process has been applied, Granite Shield will repair and recoat the application surface at Granite Shield's expense as long as abuse, neglect, misuse, vandalism or lack of proper care and maintenance has not occurred. Flooring is under warranty for 10 years from the time of application, 5 years at 100%, years 6-10 are prorated. \*Etching of calcite stones such as 2 known granites Absolute Black and Blue Bahia and marble/travertine/limestone due to acidic liquids and alcohol is not covered under warranty. Should there be a warranty call Granite Shield Corporate will pay applicator's time and material to resolve the warranty if failure is due to Granite Shield process or material.
28. CUSTOMER WARRANTY DOCUMENTATION: All customers must receive a copy of the Granite Shield warranty that is on the Granite Shield customer worksheets or warranty documentation approved by the Granite Shield corporate office. All Granite Shield paperwork given to the customer must be the most recent forms. For warranty to be activated by Granite Shield's corporate office a Granite Shield warranty card must be turned in to Granite Shield's corporate office either by the applicator or customer.
29. Location of Territory: 150 mile around address listed (by counties that need to be listed and agreed upon in this contract and is not necessarily a 75 mile radius) unless another agreement is made in writing by both parties or conflicts with another current Granite Shield applicator or distributor in which the boundaries could vary but not in size. Your customers are your customers and you can seal your customer's no matter where they are located. Territory minimums must be met or applicator will be invoiced monthly for the amount owed to the Granite Shield corporate office.
30. PREPAY SERVICE CHEMICALS AND TERRITORIES: Territory monthly minimums do apply. When purchasing prepay service chemical the Granite Shield corporate office will average it out on a quarterly basis. Example if authorized Applicator's monthly minimum is \$1,500.00 paid to the Granite Shield corporate office and 1 gallon prepay service chemical is purchased quarterly the Applicator would be meeting monthly minimum requirements. Example if authorized Distributor's monthly minimum is \$2,500.00 paid to the Granite Shield corporate office and (1) 1 gallon prepay service chemical and (1) ½ gallon prepay service chemical is purchased quarterly the Distributor would be meeting monthly minimum requirements or Applicator's under Distributor are paying a minimum of \$2,500.00 per month to the Granite Shield corporate office is acceptable. Distributor not meeting minimums, not signing up Applicator's under Distributorship is not acceptable and Distributor could lose territory and or Distributorship.
31. LICENSING FEE. Terms and conditions: Licensing fee includes a Granite Shield seal kit, a Granite Shield seal book in PDF, Granite Shield stain removal guide in PDF, Granite Shield worksheet in PDF and Excel spreadsheet, Granite Shield information in PDF, Granite Shield photos and logo in JPG, other Granite Shield related material in PDF and JPG, Granite Shield website. Licensing fee and chemicals are non refundable.

32. LICENSING FEE AND SHIPPING: Licensing fees and chemicals shall be paid either by credit card or cashier check payable to the Granite Shield corporate office and either faxed or over nighted to the Granite Shield corporate office. Once money has cleared the Granite Shield's corporate office bank account order will be placed with the Granite Shield shipping department and shipped within 10 business days. Orders are shipped UPS ground which in normal conditions takes 3 to 5 business days. Chemical orders larger than 1 gallon prepay service chemical set may take 20 business days or less. Distributor and or applicator needs to order chemicals in a timely manner to allow the Granite Shield corporate office and the Granite Shield chemist a reasonable amount of time to produce and ship chemical. Chemicals are non refundable. Chemical orders larger than 10 gallon prepay service chemical sets may take 45 calendar days and will require a 50% deposit and paid in full the day of shipping. All chemical orders have to be shipped by the Granite Shield corporate office. Chemical orders placed by Applicator to Distributor, Distributor may hand deliver. The Granite Shield corporate office will need to be the one supplying the seal kit and its contents for the first initial order when applicator pays their licensing fee. Additional future chemical if Distributor wants to supply the prepay service chemical will be allowable should it be at Granite Shield corporate office pricing and it can't be shipped. Keep in mind all applicators and distributors have the right to get their prepay service chemical from the corporate office. International chemical orders or orders shipped over the ocean Distributor and or Applicator are responsible for shipping costs and not the Granite Shield corporate office.
33. SHIPPING OF CHEMICALS. Shipping of any Granite Shield chemicals within the United States is included in prepay service chemical shipped UPS ground. UPS Air or UPS 2 Day Air applicator will pay shipping fees. Granite Shield aftercare products shipping prices are not included in price. Shipping international or over the ocean will be paid by applicator and requires UPS over night or UPS 2 Day Air. The Granite Shield corporate office will not pay for shipping and any fees associated with shipment. The Granite Shield corporate office will bill applicator for shipping costs and payable the day of shipping. All money owed is to be paid in US dollars. Chemical orders are placed in the order received.
34. CHEMICAL USAGE & WARRANTY. To seal an average 60 sq. ft. countertop should not need anymore than 1 1/2 to 3 oz. to seal. If using 1 oz. or less of each of the chemical more than likely not enough chemical is being used and not getting the proper coverage and will get failures. These failures are not due to the Granite Shield chemicals failing, it's an applicator failure. If more than 3 oz. including Ultra Seal and Crystasheen is being used way too much chemical is being used which also could lead to failures because way too much chemical is used and the chemical is not evaporating properly in between steps. This type of failure is again not due to the Granite Shield chemicals failing, it's an applicator failure. Averaging it out a 16 oz. bottle using 2 oz. of each of the chemical due to some granites are more porous than others a 16 oz bottle of each of the chemical can seal 8 60 sq. ft. granite countertops and should be able to seal 480 sq. ft. of granite. A 32 oz. bottle averaging out the chemical using 2 oz. of each of the chemical should be able to seal 16 60 sq. ft. granite countertops and should be able to seal 960 sq. ft. of granite. To properly seal 1000 sq. ft. of flooring and or grout 1 gallon of each of the chemicals used for the floor or grout process is needed. Using less chemical for 1000 sq. ft. the flooring may not be properly sealed. Flooring, grout, shower walls and concrete must be saturated properly with sealer due to nooks and crannies. Improper saturation from application could result in a warranty. The Granite Shield corporate office is not responsible for applicator not cleaning or preparing surface properly before sealing. Chemical orders are in the order received. Consignment service chemical is not available with this contract.
35. CHEMICAL SHELF LIFE: Chemicals used to seal older than 12 months need to be discarded.
36. GRANITE SHIELD AFTERCARE & CLEANING PRODUCTS: Authorized Granite Shield Applicator will have available to customer Granite Shield's Kleen N Shine, Nustone Kleen and Kleen N Shield either as a sample or available to purchase when sealing the customer's hard surface.

37. WARRANTY DOES NOT COVER:

- a) Defects that occur naturally in natural stone.
- b) Abuse, neglect, misuse, vandalism or lack of proper care and maintenance.
- c) Dissatisfaction with natural characteristics for natural stone including but not limited to color, veining, quartz, mineral deposits, water lines, pits, fissures, loss of gloss or discoloration due to cleaning products such as soap and water, waxes, polishes etc. Food particles left on stone or failing to remove oils, grease or stainable products from stone within a reasonable amount of time. Days, weeks, months or never is not considered reasonable.
- d) Fracture of stone due to temperature change such as near fireplaces, stoves and placing pot and pans directly on to stone.
- e) Non Granite Shield sealers used to seal by authorized Granite Shield applicator.
- f) Applicator that performed the service but never submitted the required paperwork to the Granite Shield corporate office to register the seal job.
- g) Grout or caulking condition, it is the customer's responsibility in areas that have caulking or should have caulking especially in 90 degree angels.
- h) Staining from the granite edge between stove and granite edge due to in most cases it is not properly sealed unless stove is moved and customer in most cases is unable to clean it and remove oils or grease should oils or grease splatter from cooking.

**Granite Shield Seal Kit Includes:**

- (1) Chemical mobile carrying case
- (2) Scotch-Brite scrub pads
- (1) Applicator Pad
- (6) Microfiber cloths
- (1) Package of terry cloth towels
- (4) Nitrile gloves
- (2) Razor blades
- (1) 8 oz. Granite Kleen
- (1) 8 oz. Nustone Kleen Ready to Use
- (1) 8 oz. Kleen N Shine
- (1) 8 oz. Silicabright
- (10) 4 oz. Kleen N Shine Repellent Lavender Scent Spray 4 OZ. in Brushed Aluminum Bottles
- (100) 8.5X11 Granite Shield Trifold Brochure
- (10) 4X6 Granite Shield Table Tent
